## Options

\* Please specify options according to user's needs. When ordering, specify an option code to be applied.

<b>Alarm 2 [A2]</b>	When this option is added, 1 alarm point is added Alarm action type, Setting range and Relay contact type are the same as those of Alarm 1 [A1]. See Alarm 1 [A1] section
<b>Heater Break Alarm [W]</b>	Watches the heater current with CT (current transformer) and detects burnout Heater rated current must be selected from 5A, 10A, 20A and 50A Setting Accuracy ----- Within +/-5% of heater rated current Output ----- Relay contact 3A 250V AC (Resistive load), Electric life: 100,000 times Self-Holding ----- Not Available Accessories ----- CT (Current Transformer)
<b>Control Output (OUT2) (Heating/Cooling Control) [DR,DS,DA,DT]</b>	If this option is applied, control output 2 is added and enables Heating/Cooling control There are 4 types of control output i.e. Relay contact output (DR), Non-contact voltage output (DS), DC current output (DA) and Non-contact relay output (DT). These must be designated when ordering. (Relay contact output, Non-contact voltage output and DC current output can be applied to JCR-33A and JCD-33A series) (Only Non-contact relay output can be applied to JCS-33A series) Control action (Heating side): The same as control output (OUT1) Control action (Cooling side): Proportional band (P) ----- 0.0 to 10.0 times the control output (OUT1) proportional band (ON/OFF action when set to 0.0) Integral time (I) ----- The same as the integral time setting value of the control output (OUT1) Derivative time (D) ----- The same as the derivative time setting value of the control output (OUT1) Overlap cycle ----- Thermocouple and RTD: -100.0 to 100.0°C (°F) Dead band ----- DC current and DC voltage: -1000 to 1000 (Decimal point follows this selection) Hysteresis ----- 0.1 to 100.0°C (°F) Control output • Relay contact (DR): 3A 250V AC (Resistive load), 1A 250V AC (Inductive load cos φ=0.4), Electric life: 100,000 times • Non-contact voltage (DS): 12-14V DC Max. 40mA (short-circuit protected) • DC current (DA): 4 to 20mA DC Load resistance: Max. 550Ω • Non-contact relay (DT): 3A 250V AC (Resistive load) Only available on model JCS Cooling action mode (This must be selected from below by key operation) • Air cooling (Linear characteristic) • Oil cooling (1.5th Power of characteristic) • Water cooling (2nd Power of characteristic)
<b>Serial Communication [C5]</b>	Various setting status changing, reading and setting of the JC•-33A can be performed from an external computer. By combining programmable controller (Option: SVTC added) with JC•-33A (Option: C5 added), it is possible to transmit the SV (setting value) of the programmable controller digitally to the JC•-33A Communication interface ----- Based on EIA, RS-485 Data transfer rate ----- (2400/4800/9600/19200bps) Selectable by key operation Communication protocol ----- Based on Shinko standard protocol or Modbus (Selectable by key operation) (When Modbus is selected, RTU mode or ASCII mode can be selected) Number of connectable units: A maximum of 31 units per host computer
<b>SV1/SV2 External Selection [SM]</b>	Provided as standard feature on model JCR and JCD. Option only on model JCS Main setting value 1 and 2 can be changed by external contact Terminal between 13 and 14 is open: SV1 Terminal between 13 and 14 is closed: SV2
<b>Loop Break Alarm [LA]</b>	This option enables Heater burnout, Sensor burnout and Input burnout to be detected Loop break alarm time ----- 0 to 200 minutes Loop break alarm span ----- Thermocouple and RTD: 0 to 150°C (°F), 0.0 to 150.0°C (°F) DC current and DC voltage: 0 to 1500 Output ----- Relay contact 3A 250V AC (Resistive load), 1A 250V AC (Inductive load cos φ=0.4), Electric life: 100,000 times
<b>Transmitter Power Supply [P24]</b>	When this option is added, 24V DC is output from the terminal 9 to 10 of JCD-33A and JCR-33A Output voltage ----- 24V DC +/-3V (When load current is 30mA) Ripple voltage ----- 200mV (When load current is 30mA) Maximum load current ----- 30mA

***All units feature a full 3-Year warranty  
and lifetime technical support!***
